DELIGHTED DELINQUENTS.

Interesting Proceedings at the House of Refuge-The Easy Way the Best-Kind Words and a Trade Completing a Reformation-Certificates of Cood Conduct Conferred on Thirteen Boys-The Boys to Leave the House and Go to Work.

At the chapel of the House of Refuge yesterlay sternoon very interesting exercises took piace in celebration of an important event in the annals of penal discipline. Experience had convinced the ciety for the Reformation of Juvenile Delinquents that many boys who had been discharged from the metitation often fell away again into the path of crime; that boys after spending years in the House of Refuge were thrown upon the world without the means wherewith to earn an honest tivelihood; that boys sinning often sinned because

NO PAIR CHANCE WAS GIVEN THEM to do better. Instances also occurred in which boys were only too eager and too glad to learn a trade, and the managers of the society seized upon this point and resolved to derive advantage from it. After due deliberation a school was opened, about aine months ago, consisting of about fifty of the boys, and these were set to work to learn the shoemaking business, with the promise held out to them that if after the nine months' experience they were qualified to earn a livelihood for themselves in the world, and that their conduct during

THE APPRENTICESHIP was deserving of the confidence of their superiors hey would not only be discharged from the House, but would receive all the money they had carned and a certificate of good conduct. During the allotted ume thirteen of the boys had come up to the standard required by the institution, and it was to award the certificates to these and to give them the money that they had earned that the proceedings of yesterday took place.
There are now in the institution 725 boys and 114

girls, and all these were present in the chapel of the House during the exercises. The chair was occupied by Oliver S. Strong. President of the Board of Managers. A number of ladies and gentlemen and many of the parents and friends of the boys were in attendance. The thirteen boys who were to receive the certificates and their discharge from the House were seated in a front row on the left of the chairman, and were very neally attreed in fashionable bran new clothes.

The exercises opened with singing by the children, after which Superintendent Israel S. Jones made his report, setting forth the manner in which the

originated and the great benefits that would yet arise from it. Then the Chaphain, Rev. Dr. i. K. Pierce, made a very appropriate address, concluding by urging the thirteen youths to assume as their motio through life, "Pieck, Push, Piety." Then there was music by the band of the institution, followed by the conferring of the certificates, the most interesting part of the programme. The boys were now ranged in order in front of the planform, and as each name was called out the chairman handes to the boy a certificate, a bank book and the carned money. Applicate from all the other little unfortunates followed the retirement of each of the rectifients. Then all the chairman a symm of praise, after which there was more music by the band, and then Mr. C. C. Leigh, one of the managers, spoke very feelingly to the andence as to the position in which these thricen boys were placed. The chairman asse addressed to the youths some parting words, but of earnest arctice and encouragement. The proceedings cosed with the "Doxonogy" and a prayer.

The idea of reclaiming these yeuthful errants by NEW DISCIPLINE OF ENCOURAGEMENT

The proceedings closed with the "Doxology" and a prayer.

The idea of reclaiming these yeuthful errants by instilling into their minds a laudable ambition to lead good and virtuous lives is said to be entirely novel in penal institutions such as the House of Reloge. The superintendent and managers of the institution say that since the class of thriven was organized, nine months ago,

A NEW SET OF FEELINGS
has taken possession of the boys minds, and more carnestness to be better and to merit the esteem of those placed over them has become plainly evident in their conduct. The thought of getting a trade and of being paid for their labor, even while in the House of Refuge, has worked most favorably in impressing the boys with the deep interest felt in them and the efforts made to aid them. The total sum of money given to the thirteen boys yesterday was \$1,398 45, this being an average of \$105 11 for each boy.

PROTESTANT EPISCOPAL CONVENTION

Pifteenth Day-Report of the Committee on the State of the Church-Asimated Debate Over the Report of the Committee on Ritual. BALTIMORS, Oct. 20, 1871. . The morning services were performed by Rev. S. D. Hinman, of Nebraska; Rev. Dr. Abergroundie, of

New Jersey, and Bishop Payne, of Africa.

The Committee on the State of the Church made a report, in which they say;-As contrasted the previous trienmial period, this tast has been marked by a signal exemption from loss in the number of deceased bishops. The Church, therefore, has reason for gratifule that so many of our older right reverend fathers, while in some degree disabled by age and infirmities from filling the full measure of their duty, are yet spared to enlighten us by their wisdom. Ince thurch, in a majerity of the dioceses, is making a steady and healthy progress. In some the growth has been rapid, while in all are evidences of a higher and truer appreciation of her sacred, important mission. They cannot, however, close their eyes to the fact that in the Southern and Southwastern dioceses there is still great weakness and depression, and the recovery of the Church in those older jurisdictions from their great calamities and deep poverity has not been as rapid as was hoped and most earnestly destred as evidence of progress generally. The report mentions great multiplication of homes, hospitals and other reloges for suffering hermanity, and especially of parish schools and educational institutions of a higher order in connection with the Church. many of our older right reverend lathers, while in

with the Church.

The committee refer to the want of efficient by discipline in the Church, the need of a high standard of personal piety, earnest devotion and self sections among a class of enrolled communicants who satisfactly neglect the blessel encharts, and whose names are retained on the parish register in hope that they will return to a better mind. In regard to unity the report says the Church was never more united during any period of her mational history than at this hour. The committee recommend the transmission of this report to the floute of bishops, with a request Cast the Bishops prepare and publish a pational letter to the Church.

A message was received from the Bone of Bishops concurring in the proposed amendment to capon 6, this 3, from this House, relating to the admission of new diocests.

The convention, at half-past eleven, took up the special order, the report of the Joint Committee on Ritual. A long discussion casued, few, fors Andrews, of Virguita; Mead, of Connecuent: Haisin, of New York; Beers, of Wheonsian Strongleilow of Alabama: Mr. Orlando Mead, by deputy, of Albany; fley. Br. In the Sixteenth Assembly district, where James Irving was renominated, there was a very large assemblage. Mr. Irving, who gained notoriety during the last session, and was obliged by the influence of the country members to withdraw from the Legislature, made a speech last evening and gave an expianation of his altercation with Mr. Weed, who, he said, was the originator of the quarrel, and had, by repeated insults, incensed him (Mr. Irving) beyond control. For eventy-living years he (Mr. Irving) had voted the straight democratic ticket. He had not sought the present nomination; but having been chosen would do his best for the success of the democratic ticket.

In the Niesteenth district Thomas C. Fields received the nomination by acclamation. Mr. Fields made a speech, in which he said that the democratic party could not be overthrown by the misdeeds of a few men. The result was tast considerable time was spent in deciding the claims of certain gentlemen to seats in the Convention. The Convention was called to order by Alderman Richardson, who proceeded at ones to effect an organization. This did not prove an easy matter, and there was a great deal of excitement before the Convention could be got in working order. Finally Alderman Richardson was elected permanent chairman. In his address he spoke of the cest of running the city government, and said if the democracy could afford to run the city government for two million dollars less this year than they did last year, what became of the two million has year. THE SLUATION IN SULLIVAY COLVEY.

The County Democratic-Election of the Democratic Candidate for State Senator Certain-Alsa Hember of Assembly from Sallivan-A Democratic Majority for the

State Licket. Monricette, Sullivan county, N. Y., Oct. 18, 1871.

The Democratic County Convention met here today for the purpose of nominating candidates for Member of Assembly and local offices. The republicans had previously made their nominations, so that both parties having arranged their tickers the canvass will soon commence in carnest. Sullivan county being strongly democratic there is no doubt in the minds of members of both parties that a democratic Memoer of Assembly and all the democrasse county tiexet was be elected by about the usual majority, which is estimated in round numbers at 609. The situation is very much the other way in Orange county, which is republican by about half the majority that Sullivan is devaceratic. These two counties constitute the lenth Senaconvention force a recess until seven of cocess to define the afternation force are consisted for all the contents of the sevent forces and the sevent for formal district, which it is easy to perceive is counted comocratic. Though there are little local issues,

districts the democrats are as much opposed to the corruptions of the Tammany ringleaders as are the republicans, and the ontery against Tammany will have very little, if any innuence on the democratic vote of this county, for party discipline and party traditions have a stronger and a harmonious lindingence. When resublicans refer to the Tammany corruptions the democrats refer to the Tammany corruptions the democrats refer to the Tammany corruptions the democrats refer to the Tammany corruptions, showing that neither party has the monopoly of political purity. At the last election for Governor this county gave a majority of 437 for Hoffman, and it is believed that the democratic majority on the general State ticket will be fully that this year.

THE DEMOCRATIC STATE COMMITTEE.

STATE COMMITTEE ROOMS, Sr. NICHOLAS HOTEL, NEW YORK, Oct. 20, 1871. The State Committee have news of the most encouraging character of the progress of the canvass

throughout the State.

Harmony upon the State ticket is seemed. The decisive action of the Rochester Convention, and the prompt and efficient measures of the Governor and Attorney General on the side of reform, h and Attorney General on the side of reform, have conclinated public opinion and consolidated the democratic masses in support of the State ticket. There will be contests in respect to the local nominations here, but there is every indication of a satisfactory majority for the general ticket. Let the democracy of the country do their full duty and success is assured.

LAKE DISASTERS.

The Wrecked Steamer R. G. Coburn-More of the Crew Saved.

DETROIT, Oct. 20, 1871.

The propeller Brooklyn yesterday brought intelligence that two more boats of the lost steamer R. G. Coburn had been found on Lake Buron, containing eighteen persons, and that they had been transterred by the rescuing vessel to the propeller S. D. Caldwell, and were on their way to Mackinaw. This morning a despatch was received from Marine City giving the names of the following rescued persons now at Mackinaw :- W. C. House, second mate: IL.

now at Mackinaw:—W. C. House, second mate; H. M. Rhodes, Martin Maherring, James Warwick, T. Mamford, Charles Miller, James Ludner, colored, and R. Keily, a passenger.

It is inferred from the despatch that only one boat was picked up in addition to that first found, and that this second boat was left at Mackinaw by the Caldwell, the steamer Magnet bringing the intelligence to Marine City. The captain of the Brooklyn may have confused and supposed that two additional boats had been saved, whereas only one was rescued in addition to the first one.

The Southern Overland Mail coach, that lett Trinidad at ten o'clock jast night for Kit Carson, was attacked by road agents about two miles and a half from town. The driver was knocked off his seat, receiving a severe cut on his head, but escaped in the darkness and got back to town, where a posse was immediately raised and started in pursuit of the robbers. They found the coach unharmed at Burns' Rauche, fifteen mues north of Trimmad, but saw no trace of the robbers, it appears that the mules became frightened, and ran naws before the robbers had time to averhand the mails. The express driver thinks there were five or six or more of the robbers.
